NOTE FOR: C/LLD

FROM:

1. Attached is the correspondence pertaining to Diane La Voy's request. Since Dewey Clarridge joined the LA Division in August 1981, he was unable to answer any of Diane's questions prior to that point. Diane is interested in an informal chat, not in a formal investigation.

2. It is possible that Pete -- the person Diane is scheduled to meet with -- may be able to answer all of her questions. It is by no means certain that Diane will need to review the OD's. If the need does arise, however, these documents should be made available. [Redacted] informed me that he can extract the appropriate portions of the OD's for her review. In the past, Ms. La Voy has had regular access to these documents, namely, on Iran.

3. In meeting with Admiral Inman this afternoon, I hope you will explain that our staff position is to proceed with this briefing. There is really no reason that this request should upset the DDO.
